Anchor clamp, PA-200 (3-8mm)

Product information:

Used to anchor and tension ADSS cable in intermediate routes or dead end during outdoor overhead FTTX line constructions.

Applications: Outdoor FTTX fiber optic cable deployment

Features:

1. Full dielectric body

2. Easy installation, no require additional tools

3. Self-adjusting wedge, no damage to cable jacket

4. Material: UV resistant thermoplastic, durable

5. Open wire bail allow easy installation with pole brackets and hooks

6. Good environmental stability

Key parts: UV resistant plastic reinforced with nylon

Technical specification:

Product code	Cable size,mm	MBL,KN
PA-200	Φ3-8	Depend on cable
